

DESERT WORLD COMPANY (DWC)

Specialized in custom made Products& services

ABOUT US

DESERT WORLD COMPANY (DWC) is a diversified engineering services & solutions provider, based in Kingdom of Saudi Arabia

The company is managed by professionals, who have more than two decades of industrial value selling experience in Middle East & Asia. Since its inception in 2008, the company strongly focuses on providing value added services to its customers in the Kingdom of Saudi Arabia and neighboring GCC Countries

Mission- To be a value-added service provider,offering reliable products & solutions

Vision- Growththrough Collaborations

OUR GOALS

- Growing our market share by having a wider coverage.
- Our target growth is to be above market growth rate
- Increasing the range of products, we supply.
- Searching to import new quality brands.

OUR PARTNER

Global manufacturers represented by DWC.

Exclusive partner agreements with the world's leading manufacturers, backed by full local support.

SPI Global Distributors s a Kansas-based global leader in advanced protective and insulation coatings. Established in 1988, the company provides environmentally friendly, energy-efficient solutions for industrial, petrochemical, commercial, and residential applications. Through its worldwide distributor network, SPI serves diverse sectors including oil & gas, heavy industry, marine, roofing, military, aerospace, housing, infrastructure, and more.

PRODUCT DESCRIPTION

- Eco-friendly, high-performance coatings for heat insulation and corrosion protection.
- Designed for industrial, petrochemical, commercial, and residential applications.
- Extend equipment life and provide long-term durability in harsh environments.

BENEFITS

- Reduce energy usage and corrosion-related costs by 20%–60%.
- Lower maintenance, repair, and replacement expenses.
- Minimize or eliminate CUI (Corrosion Under Insulation).
- Extend service life of equipment and infrastructure.
- Provide reliable performance in demanding industrial environments.

LPSpa situated in Venegono Superiore Italy. LPSpa offers a wide custom designed range of products for the oil, gas and chemical industry by using most advanced technology, exceptional craftsmanship and an uncompromising dedication to excellence.

PRODUCT DESCRIPTION

- Finned & Studded Tubes
- Headers and Manifolds
- Fired Heater Radiant and Convection Coils / Modules
- Cryogenic Liquid Vaporizers
- Inlet Distributors and Pigtails

- **ISO** 9001:2015 released by Det Norske Veritas
- **AD 2000** – MERKBLATT HP0 / TRD 201 / EN ISO 3834 – Released by TÜV SÜD (NB) for the manufacture of boilers and pressure vessels.
- **ARAMCO** Quality System Approved – As a manufacturer of finned and studded tubes, header pipes, and spools.

APPROVED: Aramco / KNPC / SABIC / ADNOC / BAPCO

CTS GROUP

CTS is a leading global solutions provider from Netherland with a strong foothold in the storage tank industry. CTS is specialized in the design, manufacturing, supply and installation of product sand systems used in the safe and effective transfer for storage of chemical sand hydrocarbons. The management of CTS has an extensive track record in requirements in this area.

PRODUCT DESCRIPTION

- Special Inspections& Integrity assessment Mitigation
- Floating Roof Primary & Secondary Seal (API 650)
- Guage Pole Cover & Guage Pole Sleeves
- Shunt / Lighting Protection (SAES-P-111)
- Drainmaster Hose swivel
- Integral Foam Dam (IFD) -NFPA 11

Our team aims to provide solutions rather than products. Their expertise and experience is a guarantee that the products are installed in the most economic, efficient and above all safe manner.

APPROVED: Aramco / SABIC / ADNOC / SWCC / NWC / MARAFIQ

5ELEMbased on high-end lay-flat hoses from China is the scale application of the flexible polymer material and high-strength fiber.

Products Description

- Oil & Gas Hose (Franking Hose, Anti-Static Polyurethane Layflat & Anti-Static Polyurethane Layflat Hose-Marine Oil.
- Industrial Hose (Mill Fire Hose, Mill Fire Hose & Nitrile Rubber Hose).
- Marine Hose (MED sinflex, MED Higflex & DUY RS).

APPROVED: ARAMCO

METALCO

Metal Alloys Corporation is a specialized manufacturer of high-quality condenser tubes and heat exchanger tubing solutions for industrial applications worldwide.

Products Description

- Manufactures condenser and heat exchanger tubes in copper, brass, and cupro-nickel alloys.
- Products are widely used in power plants, oil & gas, marine, HVAC, and industrial systems.
- Focuses on high thermal efficiency, corrosion resistance, and long service life.
- Supplies reliable tubing solutions for demanding industrial environments.

PROTECTOSEAL
Safety Without Compromise

Protectoseal is a U.S.-based manufacturer specializing in industrial sealing, fire protection, corrosion prevention, and containment solutions for electrical, mechanical, and infrastructure applications.

Products Description

- Provides engineered sealing solutions for hazardous and critical environments.
- Products are designed to prevent moisture, gas, fire, and corrosion ingress
- Widely used in oil & gas, power generation, industrial plants, and infrastructure projects.
- Focuses on safety, durability, and long-term asset protection.

SACRED SUN

Shandong Sacred Sun Power Sources Co., Ltd. is a national high-tech enterprise founded in 1991 and headquartered in Shandong, China, listed on the SME board of the Shenzhen Stock Exchange since 2011 (stock code: 002580). Sacred Sun develops green digital energy system solutions across network power, energy storage, and motive power, manufacturing lithium-ion and lead-acid batteries alongside integrated power system solutions. Operating through twelve subsidiaries spanning the complete supply chain, the company's products are exported to more than 130 countries and installed in over 1,000 major projects worldwide.

GULF STEEL FACTORY

Gulf Steel Factory Company (GSF) is a Dammam, Saudi Arabia-based manufacturer established in 2010, focused mainly on the energy sector with a diverse portfolio, a strong emphasis on product development, and extensive experience across the GCC. GSF designs, builds, and supplies highly specialized products for the oil and gas industry, including tubular heat exchangers, pressure vessels and towers, flare systems, and skids. GSF is also the Saudi joint-venture partner behind Sunpower Middle East Company, based in the 2nd Industrial City, Dammam.

WAED ARABIA COMPANY

Waed Arabia Company (WAC) is a trusted engineering and technology company delivering integrated solutions in Electrical Systems, Industrial Automation, Renewable Energy, Digital Transformation, and Cybersecurity. WAC specializes in advanced electrical and engineering solutions that empower industrial, commercial, and infrastructure sectors to enhance operational efficiency, reliability, and sustainability. The company is also a trusted supplier of Qualitrol instrumentation, including transformer condition monitoring and protection equipment.

SUNPOWER MIDDLE EAST COMPANY

Sunpower Middle East Company is a joint venture established in 2025 between Sunpower (China) and Gulf Steel Factory (G.S.F., Saudi Arabia), based in the 2nd Industrial City, Dammam, Saudi Arabia. Drawing on Sunpower's global heat-transfer engineering expertise, the company manufactures tubular heat exchangers, pressure vessels and towers, flare systems, and process skids for the region's oil & gas, petrochemical, and process industries. Sunpower's parent group holds certifications including ASME U2/U/NB/R Stamp, ISO 9001, ISO 14001, and ISO 45001, and has supplied major international customers such as BASF, DOW Chemical, BP, SABIC, Saudi Aramco, ADNOC, and ExxonMobil.

OUR SERVICES

PRECISION MECHANICAL & FABRICATION WORKSHOP PMF

We are a specialized provider of industrial equipment repair, overhaul, and custom fabrication, serving the oil & gas, petrochemical, power, and heavy industries with integrated solutions that minimize downtime and maximize asset reliability.

Core Business Areas:

1. Rotating Equipment Overhauling:

Complete inspection, precision machining, repair, and reassembly of rotating equipment.

2. Fabrication & Precision Machining:

Custom fabrication, structural modifications, and reverse engineering solutions.

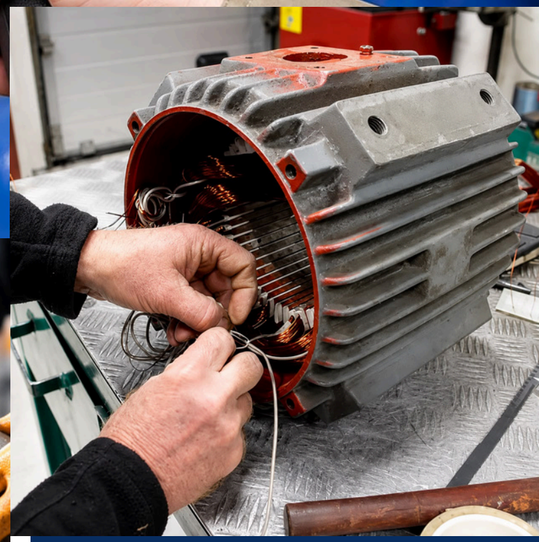

3. Transformer Testing & Overhauling:

Testing, maintenance, and complete overhaul of power and distribution transformers.

On-Site Services:

Rapid on-site support including installation & commissioning, MCSA, vibration analysis, thermography, field balancing, and emergency repairs.

INFRASTRUCTURE & EQUIPMENT

Our workshop is designed to handle projects of varying scales, from small precision components to large industrial machinery.

Facility / Equipment	Specification / Capacity
Workshop Area	Spacious facilities include high-bay areas for large equipment.
Overhead Cranes	Heavy-lift capacity to handle large machinery with ease.
Dynamic Balancing	Machines capable of handling rotors of various sizes and weights.
CNC Machining	3/4/5 Axis machining centers; CNC lathes.
Heavy Lathes	Large swing and bed length capacities for oversized workpieces.
Welding & Fabrication	MIG, TIG, SAW; Blasting and painting booths; Heat treatment furnaces.

CIVIL SERVICES

We provide integrated construction, maintenance, rehabilitation, and protection solutions for industrial, commercial, and infrastructure projects.

Core Services:

- Concrete repair & structural rehabilitation
- Crack repair & injection grouting
- Cementitious grouting for equipment foundations
- Waterproofing systems (Membranes & PU)
- Polyurea coatings & FRP lining
- PVC & EPDM membrane installation
- Industrial epoxy flooring systems
- Protective coatings for concrete & steel
- Expansion joints & sealant applications

DRILLING WATER WELLS

As part of its strategic expansion, DWC acquired Al Harbi Drilling Company, a leading Saudi water well drilling company established in 1984. The acquisition strengthened DWC's technical and operational capabilities, enabling it to provide integrated well drilling, geohydrological, and hydrogeological solutions across Saudi Arabia and the Gulf region.

DWC offers water well drilling, geohydrological and technical services, well testing, borehole logging, coring, cementing, CCTV inspection, well rehabilitation, and the supply of cementing equipment and casing slotting.

ACHIEVEMENT SUMMARY

Indicator	Value
Total number of completed wells	159 wells
Maximum completed depth	520 meters

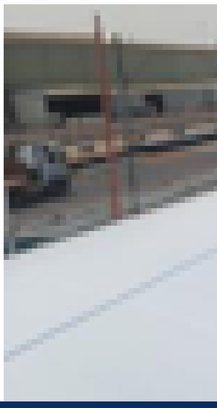

The projects listed above represent part of Al Harbi Drilling Company’s track record and accumulated expertise since 1984. Today, this legacy forms part of Desert World Company following the strategic acquisition, further strengthening the company’s capabilities and experience in the water well drilling and groundwater sector within the Kingdom of Saudi Arabia.

INDUSTRIAL SURFACE PROTECTION & COATING SOLUTIONS

We deliver specialized industrial painting, coating, and surface preparation services that help protect valuable assets, extend service life, and maintain operational reliability in demanding environments. Our solutions cover epoxy coating, acid pickling, abrasive sand blasting, internal coating, protective painting, and corrosion protection for oil & gas, petrochemical, onshore, coastal, and industrial facilities.

Backed by experienced professionals and a commitment to safety and quality, we use industry-approved methods to achieve proper surface preparation, strong coating adhesion, durable finishing, and long-term resistance against corrosion and harsh operating conditions. Every project is executed with attention to client specifications, site requirements, and recognized industrial standards.

OUR KEY SERVICES INCLUDE:

abrasive sand blasting, epoxy coating systems, acid pickling, internal coating, protective painting, corrosion control, and surface finishing for industrial equipment, steel structures, tanks, pipelines, and plant facilities.

From preparation to final coating application, we provide reliable, efficient, and quality-driven services that support asset integrity and help our clients operate with confidence.

HELIX™

Helix is an advanced Cathodic Protection (CP) monitoring system designed for the oil and gas industry. It provides real-time remote monitoring of pipeline cathodic protection, allowing operators to detect failures immediately, reduce corrosion risks, lower maintenance costs, and extend pipeline service life.

PRODUCT DESCRIPTION

- REAL-TIME CATHODIC PROTECTION MONITORING.
- INSTANT ALERTS FOR UNDER- OR OVER-PROTECTION.
- REMOTE MONITORING OVER A SECURE NETWORK.
- REMAINING ANODE LIFE ESTIMATION.
- PREDICTIVE MAINTENANCE USING MACHINE LEARNING.
- HELIXCARE CUSTOMER PORTAL WITH 24/7 ACCESS AND TECHNICAL SUPPORT.
- EXPANDABLE PLATFORM WITH ADD-ON CAPABILITIES SUCH AS LEAK DETECTION, PRESSURE MONITORING, INTERNAL CORROSION MONITORING, SLUG FLOW, AND PUMP CAVITATION.
- SOLAR-POWERED OPERATION AND OFF-GRID DEPLOYMENT CAPABILITY.
